

HUMMINGBIRD WHOLESAL

Nourishment with INTEGRITY[®]

Your Connection to the Source for Organic Farm-Direct Ingredients

We work with you to create farm based sourcing plans that best fit your needs:

- Vertically integrated custom sourcing, processing and distribution
- Customized crop planning
- Farm-direct relationships
- Over 10,000 Organic acres of opportunity
- Clear identity preservation and transparent origin labeling
- Specializing in U.S. and Pacific Northwest grown products
- Unique and innovative products:
 - Awakened[®] sprouted line
 - Superfoods
 - Heirloom varieties
 - Varieties bred for yield, quality and flavor

At Hummingbird, every relationship counts. We strive for fair returns to farmers, while offering the highest quality ingredients and services to our customers.

“I’ve been using Hummingbird Wholesale since I started my business. One reason I chose them in the first place was their dedication to ethical and sustainable practices and their impeccability in choosing suppliers. Over the years, I’ve learned that their commitment to integrity doesn’t end with their farmers and suppliers. I have had only positive experiences with their sales team, customer service team, and delivery drivers. Consistency of product and availability when we need product has always been fantastic. In fact, Hummingbird is fantastic on every level. I feel so lucky to have found them!”

– Christy Goldsby, Founder of Honey Mama’s, Nexty Award Finalist, Best New Sweet Snack 2018

About Us

Since 1972, family-owned Hummingbird Wholesale has been committed to sourcing certified Organic beans, grains, seeds, nuts, dried fruit and other products to meet customers’ specifications. We have become a preferred supply partner to food manufacturers, both small and large, consistently meeting ingredient needs from case quantities to pallets, truckloads, rail cars, and shipping containers.

Our Values

We serve people and the planet by providing high quality, nutrient dense ingredients and food products. We work closely with farmers, businesses and nonprofit organizations to promote sustainable agriculture, build regional food system solutions, and strengthen the organic community. At Hummingbird, we think food should be clean and healthy, and that farming can be an act of environmental and social stewardship—improving the soil and enriching rural communities. We are committed to being a positive force for change in the organic food industry.
