8000BTU FOR ROOMS CIRCA 25m²
9000BTU FOR ROOMS CIRCA 26m²
10000BTU FOR ROOMS CIRCA 28m²

THE MEACOCOOL FAMILY OF AIR CONDITIONERS

The MeacoCool family of portable air conditioners are designed for use in the home or the office to provide personal comfort cooling during the summer months.

The air conditioners work by drawing the warm humid air from the room over a cold surface which cools and dries the air simultaneously. The cold air is blown out of the front of the portable air conditioner whilst the warm, humid air is expelled from the space via a 1.8m long exhaust duct.

Removing the hot, humid air from the room reduces the relative humidity which means you have less of the sticky feeling that makes it hard for us to feel cool and comfortable during the summer months.

The big advantage of the MeacoCool range is its smaller, lighter and more compact size making it easier to fit within a room and to move from space to space.

The remote control allows you to change the settings without having to get up to the unit, while a window kit makes the cooling more efficient. In low fan speed the sound pressure level of 56dB(A) makes this a easier unit to live with.

To get the best out of your air conditioner we recommend pre-cooling rooms, before you need to use them, so that the room is nice and cool when you need to use it. In the case of

a bedroom this makes it easier to get a good night's sleep. You can do this more easily using the air conditioner's On Timer.

The Sleep Mode keeps the unit in low fan speed to ensure the lowest possible noise level, you can combine this with the Off Timer to ensure that you do not wake up cold during the night.

Models with the heating mode can be used in the winter months to provide warmth.

All MeacoCool air conditioners come with a two year parts and labour warranty with the option of extending this to five years if you wish.

SPECIFICATIONS

Product Name	MeacoCOOL MC SERIES 8000BTU	MeacoCOOL MC SERIES 9000BTU	MeacoCOOL MC SERIES 10000BTU	MeacoCOOL MC SERIES 10000BTU CH
Cooling Capacity	8000BTU	9000BTU	10000BTU	10000BTU
Power Consumption	890 watts	950 watts	1085 watts	1085 watts
Heating Capacity	N/A	N/A	N/A	9000BTU
Noise Level	50dB in low fan speed	53dB in low fan speed	56dB in low fan speed	56dB in low fan speed
Energy Rating	A	B	B	B
Airflow (maximum)	330m ³ / hour	330m ³ / hour	330m ³ / hour	330m ³ / hour
Approx. Room Size	15 - 25m ²	16 - 26m ²	18 - 28m ²	18 - 28m ²
Duct Diameter	15.3cm / 6"	15.3cm / 6"	15.3cm / 6"	15.3cm / 6"
