Installation Instructions

For best results, locate the solar path light in a position where it can get direct sunlight, free from cover and shade. (As shown in figure 1). Make sure that the solar panel is not going to be affected by any other light source.

- 1) Mount the bracket with the 2 screws provided, figure 2.
(For ground application insert the 2 plastic spikes provided into the holes on the bottom of the path light)
- 2) Firmly press the button to the "AUTO" position, figure 3.
- 3) Align the solar path light over the bracket and turn clockwise, figure 4.
- 4) Allow the solar path light to receive a full 24 hours of sunlight so the rechargeable battery can reach maximum capacity.

Replacing the Battery

For best results the battery should be replaced every 12 months

- 1) Turn the switch to off on the back of the unit and remove the 8 screws.
- 2) Replace the battery with a new 1.2 v Ni-MH AAA rechargeable battery.
- 3) Re-assemble and turn the battery switch to auto.
- 4) Allow the solar path light to receive a full 24 hours of sunlight so the rechargeable battery can reach maximum capacity.

Troubleshooting

If the light does not turn on at dusk after 24 hours of charging:

- Check the battery to make sure it is making secure contact with the terminal.
- Be sure the solar fixture is in a relatively sunny location.
- Make sure the light's photocell is not affected by other light.

Maintenance

Periodically clean light fixture with soft cloth and warm soapy water.
