FLY STITCH

All the leaves are done with a fly stitch keeping the leaf veins quite close together as shown in the diagram. Keep gaps between the stitches though to give the leaves texture.

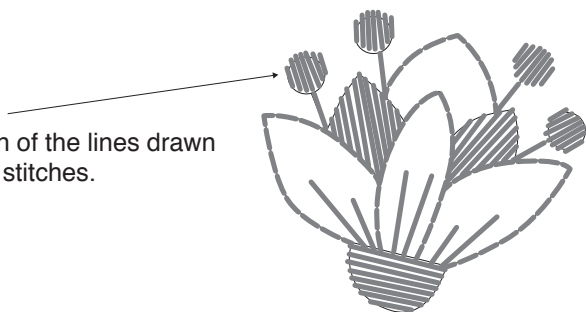

HERRINGBONE STITCH

Fill the three stems with the herringbone stitch.

SATIN STITCH

Follow the direction of the lines drawn here for your satin stitches.

BACK STITCH

The outline of the hand is done in a back stitch. Be mindful when going around tight corners that you keep your stitches small so as to get a neat curve.

SINGLE STITCH

Finish the hand off with small single stitches where you see creases in the fingers.
