Prepared to OSHA, ACC, ANSI, NOHSC, WHMIS, 2001/58 & 1272/2008/EC Standards SDS Revision Date: 06/03/14 4. FIRST AID MEASURES 4 1 First Aid: Contact ChemTrec at +1 (703) 527-3887 or the nearest Poison Control Center or local emergency Ingestion: telephone number for assistance and instructions. If vomiting occurs spontaneously, keep victim's head lowered (forward) to reduce the risk of aspiration. Eyes: If product is in the eyes, flush with copious amounts of lukewarm water for at least 15 minutes. Open and close eyelid(s) to ensure thorough irrigation. If problem persists, seek medical attention. If redness, dryness or other signs of irritation to the skin develop, wash affected skin areas with plenty of Skin: warm water and soap. Remove contaminated clothing and wash thoroughly before reuse. If irritation persists, consult a physician. Inhalation: Remove victim to fresh air at once. **HEALTH** Medical Conditions Pre-existing dermatitis, other skin conditions, and disorders of the 4.2 1 Aggravated by Exposure target organs (eyes, skin, and respiratory system). **FLAMMABILITY** 0 **PHYSICAL HAZARDS** 0 В PROTECTIVE EQUIPMENT **EYES** SKIN 5. FIREFIGHTING MEASURES 5 1 Fire & Explosion Hazards: This product is non-flammable. However, if involved in a fire, this product may ignite and decompose to carbon monoxide, carbon dioxide and smoke. Extinguishing Methods: 5.2 Water Fog, Foam, Dry Chemical. Firefighting Procedures: As in any fire, wear MSHA/NIOSH approved self-contained breathing apparatus (pressure 5.3 demand) and full protective gear. Keep containers cool until well after the fire is out. Use water spray to cool fire-exposed surfaces and to protect personnel. Prevent runoff from fire control or dilution from entering sewers, drains, drinking water supply or any natural waterway. Firefighters must use full bunker gear including NIOSH-approved positive pressure self-contained breathing apparatus to protect against potential hazardous decomposition products. 6. ACCIDENTAL RELEASE MEASURES Before cleaning any spill or leak, individuals involved in spill cleanup must wear appropriate Personal Protective 61 Spills Equipment (PPE). For small spills (e.g., < 1 gallon (3.79 L)) wear appropriate personal protective equipment (e.g., goggles, gloves). Maximize ventilation (open doors and windows) and secure all sources of ignition. Remove spilled material with absorbent material and place into appropriate closed container(s) for disposal. Dispose of properly in accordance with local, state and federal regulations. Wash all affected areas and outside of container with plenty of warm water and soap. Remove any contaminated clothing and wash thoroughly before reuse. For large spills (e.g., ≥ 1 gallon (3.79 L)), deny entry to all unprotected individuals. Dike and contain spill with inert material (e.g., sand or earth). Transfer liquid to containers for recovery or disposal and solid diking material to separate containers for proper disposal. Remove contaminated clothing promptly and wash affected skin areas with soap and water. Keep spills and cleaning runoffs out of municipal sewers and open bodies of water. 7. HANDLING & STORAGE INFORMATION 7.1 Work & Hygiene Practices: Avoid eye contact. Do not eat, drink or smoke while handling product. Store containers in a cool, dry location, away from direct sunlight, other light sources, or sources of intense heat. Store 72 Storage & Handling away from incompatible materials (see Section 10). Do not store in damaged or unmarked containers or storage devices. Spilled material may present a slipping hazard if left unattended. Clean all spills promptly. 7.3 Special Precautions: 8. EXPOSURE CONTROLS & PERSONAL PROTECTION When working with large quantities of product, provide adequate ventilation (e.g., local exhaust ventilation, fans). Ventilation & Engineering 8.1 Ensure that an eyewash station, sink or washbasin is available in case of exposure to eyes.
