ABOUT CHILTON

Chilton is a Maine company offering wood furniture of simple and timeless design. Our furniture is 100% American made, from American hardwoods, and more than half of our pieces are handmade in Maine.

At Chilton, we believe our homes should offer a sanctuary of comfort and serenity—an antidote to the stresses of modern living. We believe that wood furniture connects us to nature and adds warmth and texture to our homes.

We are known for our Shaker inspired dining, living, bedroom and office furniture. We are also proud to offer a growing collection of original, modern designs, found exclusively at Chilton, including several of the pieces in this catalog, offered here for the first time.

Visit our showrooms in Freeport or Scarborough, Maine, or online at **chiltons.com**. We hope to see you soon!

Modern aesthetic meets traditional craftsmanship

The warmth of modern Scandinavian design

A principle of modern Scandinavian design is that good design need not be a status symbol, but should be used to improve the quality of everyday life—a view also shared by the Shakers. We agree. We find the warm, understated simplicity of modern Scandinavian design to be beautiful and calming. Our goal for our Scandinavian inspired designs, such as our **Hygge** dining table, is to make them affordable and create pieces that add serenity and comfort to your home.

The Timeless Simplicity of Shaker

The Shakers have always believed beauty is found when form follows function. We are inspired by Shaker designs because we agree that everyday objects should be functional, unpretentious and beautiful at the same time.

Chilton's solid wood **Shaker inspired dining tables** are both elegant and understated. Made in Buxton, Maine. The tables shown here are in solid cherry. For more size, wood and finish selections, please visit our website at chiltons.com.

Chilton's new MS1 collection is defined by elements typical of Shaker design with modern proportions. Featuring a leg detail that transitions from square to cylindrical, mortise and tenon joinery, dovetail drawers and soft-close undermount glides, the MS1 collection is both elegant and built to last.

An original Chilton design, our MS1 pieces work well as a unified collection, or mixed and matched in an eclectic combination with our Shaker bedroom pieces. Made in cherry.

Japanese Minimalism

Japanese design principles celebrate uncluttered lines and spaces, as well as deep reverence for nature—an appreciation shared passionately here in Maine. Our **Acadia** bed draws inspiration from these concepts, along with respect for the tree from which each piece is made. Clean lines are contrasted by a single edge from the barkline of the tree, drawing us back to nature and making each bed truly unique.

Our Acadia bed

Our most popular bed, the **Acadia** recently graced the cover of the annual *Art Maine* magazine and has been featured multiple times on Animal Planet's *Treehouse Masters* as the perfect accompaniment to their Mid-Century modern designs.

A favorite

The **Burnette Bed** is hand built by a single artisan in Midcoast Maine. Displaying true craftsmanship, the spindles pierce the bowed frames in a mortise-and-tenon construction, where they are then wedged into place. Sturdy yet elegant, the Burnette Bed is a perennial customer favorite.
