THIRD DRAWER DOWN

LOOKBOOK 2019

Why work with Third Drawer Down

Design, licensing and distribution of every day art products are in our blood.

Third Drawer Down Studio offers an unmatched design service built on our love of collaboration and quality art objects. Whether it be handmade ceramic, linen printed tea towels, leather accessories, art inspired snow globes or a custom design you've been thinking about for years.

The artists we collaborate with, become part of the Third Drawer Down community, which we hold very dear to us. Getting to know you and your vision for

your collection is an important part of the journey of collaboration. Want to create affordable keepsakes? - we can do that. A limited edition luxury collection? - absolutely. Our studio has worked with over 150 modern and contemporary artists on products across the category spectrum -everything from ceramic catchalls to waxed overnight bags.

Our designers know how important it is to strike the balance between artistic design and commercial sensibility and after 10 years we have this down to an art form. We pride ourselves on only working with high quality, cost efficient suppliers that always

meet the brief. The integrity of your art is important to us and we work hard to ensure we create only the very best products. As we produce third and fourth collections for several of our artists, we think this speaks for itself.

We truly understand consumers with lifestyle interests (art, design, fashion, popular culture), which means constantly challenging our thinking, approaches and interpretations. We LOVE to explore new formats for retail, presentation and promotion, all of which assists better product launches, increased desirability and is naturally more fun!
