RE: MoDNR Lab ID 500

Dear Ms. MacMillan:

After review of the submitted application, the Louisiana Department of Health on-site evaluation report, and other supporting documentation submitted by National Testing Laboratories, Ltd., it is recommended the above laboratory be reciprocally certified to perform chemical analysis of potable water for the methods and parameters listed below. The primary certification from the Louisiana Department of Health expires December 31, 2019. The reciprocal certification from the State of Missouri is for three years and expires December 31, 2021.

The above listed methods and contaminants have been recommended for certification to Mr. David Lamb, Chief of the Department's Public Drinking Water Branch. Mr. Lamb will notify you of your final certification status.

The State of Missouri requires laboratories to submit Proficiency Testing Water Supply Study (PTWS) results and any associated correspondence pertaining to the results. In addition, you must submit new primary certificates as they are issued. This information is due within 60 days after release of PTWS results and issuance of the certificate from the primary certification authority. You will be required to forward this information to:
