ESTIMATED REPLACEMENT VALUE: USD \$3600

The object of an insurance appraisal is to establish an accurate position and to provide sufficient support in the event a proof or loss or damage becomes necessary. This valuation shall give the approximate cost of replacing or recreating the gem or jewelry article as closely as possible. In order to accomplish this, the appraisal shall take into consideration today's market prices as well as current costs for labor, materials, creative design, certification and the precious stone and metal markets. Loop Jewelry assumes no liability with respect to any other action that may be taken on the basis of the insurance appraisal.
