

# MODEL 200 KEY MACHINE PARTS LIST

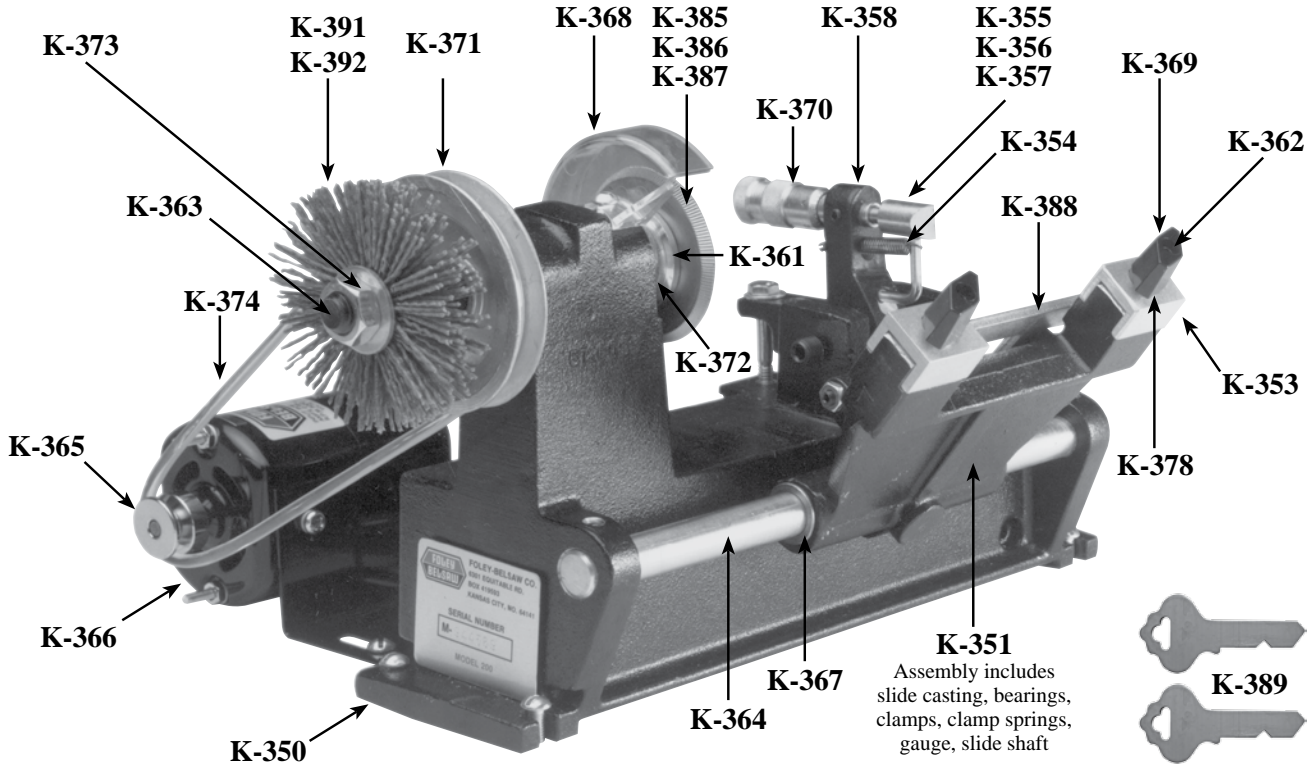

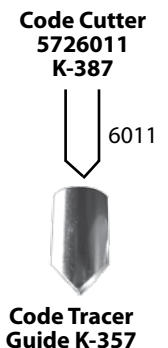

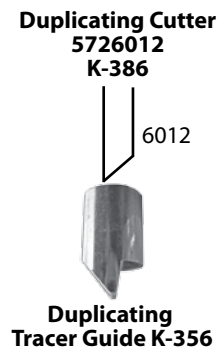

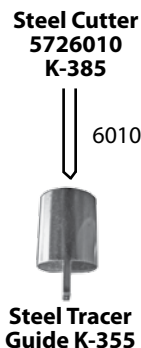

Figure No.	Order No.	Description	Price
K-350	5726033	Base	
K-351	5726005	Slide Casting bearings, clamps, slide shaft	
K-353	5726006	Clamp	
K-354	5726007	Spring	
K-355	5726008	Tracer Guide (Steel)	
K-356	5726009	Tracer Guide (Duplicating)	
K-357	5726013	Tracer Guide (Code)	
K-358	5726014	Guide Arm Casting	
K-361	5726015	Retainer Washer (requires 2)	
K-362	5726903	Stud for clamp	
K-363	5726017	Cutter Shaft	
K-364	5726018	Slide Shaft	
K-365	5726019	Pulley (Motor)	
K-366	5726001	Motor 110V	
K-367	3709245	Bearing (sold each) 5726029	
K-368	5726028	Chip Guard	
K-369	5726021	Wing Nut	
K-370	5726022	Micrometer	
K-371	5726023	Pulley (Cutter Shaft)	
K-372	5726020	Bearing (sold each)	
K-373	3709214	1/2"-13 LH Thread Nut	
K-374	5726002	Belt	
K-378	5726025	Clamp Spring (Compression)	
K-385	5726010	Slotting Cutter (steel key)	
K-386	5726012	Duplicating Cutter	
K-387	5726011	Code Cutter	
K-388	5726026	Shoulder Gauge	
K-389	5726653	Adjustment Key (requires 2)	

Figure No.	Order No.	Description	Price
-	R001128	Operator's Manual	
<b>Optional Equipment</b>			
K-391	5787427	3" Carbide-impregnated Nylon Deburring Wheel	
K-392	5786696	4" Steel Wire Wheel	
<i>See next page for details</i>	5729727	Direct Read Digital Micrometer Depth Kit	
	5729728	Direct Read Digital Micrometer Spacing Kit	
	5729726	Both Direct Read Micrometer Kits	
	5729722	Tracer Guide (Steel) for Digital Micrometer only	
	5729723	Tracer Guide (Duplicating) for Digital Micrometer only	
	5729724	Tracer Guide (Code) for Digital Micrometer only	
	5729725	Guide Arm Casting Digital Mic	
	3707340	Machine Lamp (new style)	
	5749829	Board w/ Box & Feet	
5727190	12V DC Motor

# MODEL 200 KEY MACHINE

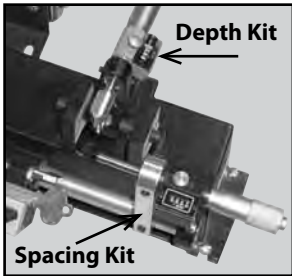

**SIMPLE, BASIC, PORTABLE DESIGN HAS MADE THIS MACHINE A LOCKSMITH FAVORITE FOR YEARS!**

## FOLEY-BELSAW MODEL 200 KEY MACHINE

The Model 200 cuts flat steel and master key systems in addition to all ordinary keys. It also operates as a code cutting unit with one of the simplest methods ever devised. This model also comes with a built-in micrometer so you can adjust for worn keys – a very important feature! Three cutting wheels and instructions included. **Shown with optional deburring brush.** This machine needs to be mounted to a table or board to operate. 14 pounds,

## UPGRADE YOUR MODEL 200 KEY MACHINE INTO AN EASY TO USE DIGITAL CODE MACHINE!

Upgrade turns your Model 200 Key Machine into a code cutter worth hundreds of dollars, allowing you to control both the depth and the spacing on your Model 200 machine with the accuracy of a direct read digital micrometer. These two direct read digital micrometers are only found on key machines that cost hundreds, if not thousands, of dollars more. These are non-electronic digital micrometers.

If you already have the digital spacing micrometer, then you know how much easier these micrometers are to use and read. The reading is direct so you always know the setting. You no longer have to remember how many revolutions you made or go back to 0 every time. Just dial the number in and make your cut. The depth micrometer comes with a new casting drilled to fit the larger shaft on the micrometer and new tracer guides to fit the barrel of the micrometer.

### Direct Read Digital Micrometer Depth Kit

Kit includes: digital mic., one each tracer guide, guide arm casting and instructions.

Order No. 5729727

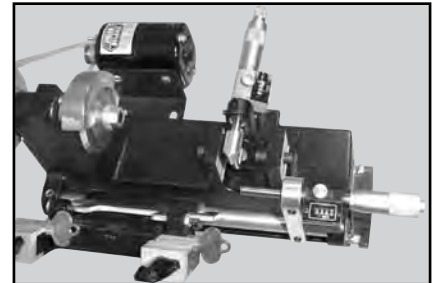

### Direct Read Digital Micrometer Spacing Kit

Kit includes: digital mic., mounting bracket, & instructions.

Order No. 5729728

## COMPLETE MODEL 200 KEY MACHINE WITH BOTH DIGITAL MICROMETERS

Model 200 Key with both micrometers  
Order No. 5729729

**SAVE ON BOTH DIGITAL MIC KITS**  
Includes 5729727 and 5729728.  
Order No. 5729726
